

# Improving your streetlighting

Balfour Beatty are working on behalf of Cambridgeshire County Council to upgrade, replace or remove all of the County's street lights and work is set to start in your area over the next few months.

## What are the benefits?

- Brand new street lighting, using the latest technology
- Improved visibility and better quality 'white' light
- Saving over 4,500 tonnes of CO2 emissions per year
- Reducing energy consumption around the County by approximately 46%
- Introduction of Central Management System allowing lighting to be changed remotely

→ Look out for our leaflet through your door which will provide more information on the work to be undertaken.
